Download the Alien's Daily Offers App for iOS or Android. In recent years, high speed and high precision of an engine such as a diesel engine or an aircraft engine have been required. At the same time, a requirement for saving fuel has been increased. In order to satisfy such requirements, it is necessary to improve a heat transfer characteristic of an exhaust gas purifying catalyst, in other words, a purifying ability of the catalyst. Under the above situation, a catalyst which can retain high purifying ability at a high temperature has been proposed (Patent Document 1). Q: How to add an element in an array by index? I want to add an element to an array by index. `var array = new Array(); array.push("Hello"); var index = 1;` I want to add Hello with index 1 to the array, not the first element with index 0, which is Hello. I want to do something like this
