book has made me think a lot. (Please help the English post cleaner fix the punctuation and spelling mistakes). On Tuesday, with Donald Trump's campaign watching helplessly

from the sidelines, former New York City Mayor Rudy Giuliani (R) confirmed what we've suspected for a while: that the president's new policy to bar transgender people from serving in the

military is in part the result of his Biblethumping son-in-law Jared Kushner's influence. And that's not even taking into account the role that Ivanka Trump, the president's daughter and senior adviser,

played in shaping that policy. In an interview with Newsmax TV's Steve Malzberg, Giuliani — an outspoken Trump supporter — argued that the Trump administration's ban on transgender people

in the military is based on "the Bible." "The Trump administration has followed the Bible," Giuliani said. "The Bible says the sin of onanism, which is the sin of masturbation, is a sin against the Holy

Spirit. It's a sin against God." "So that's what the president did," he continued. "He read the Bible. He found it in the Bible, and he said it's a sin against the Holy Spirit." The policy is the latest in a string of anti-

transgender initiatives that Trump has enacted in an attempt to "banish the 'transgender' fixation from American life," writes Vox's Amanda Kritzler. 2d92ce491b
